STOP and VERIFY This message came from outside of Morrow County Gov

Hi Tamra,

The Port of Morrow can deliver municipal water anywhere within their service boundary (Morrow County) for any purposes that are usual and ordinary for municipal use (OAR 690-300):
"Municipal Water Use" means the delivery and use of water through the water service system of a municipal corporation for all water uses usual and ordinary to such systems. Examples of these water uses shall include but are not limited to domestic water use, irrigation of lawns and gardens, commercial water use, industrial water use, fire protection, irrigation and other water uses in park and recreation facilities, and street washing. Such uses shall not include generation of hydroelectric power.

For this review, I would ask that the Port and the project proponent identify which POM water right is going to supply the municipal water to that we can ensure its use fits with this proposal.

Please let me know if you need anything else from OWRD.

Thanks,
Chris

Chris – attached are the two letters from Port of Morrow. The original application was a letter of intent and the second is an executed letter of intent.

Below is a link to the entire application and packet.

Appreciate your review of this.

Tamra
